

Create Interactive Demos and Tutorials with MadCap Mimic

MadCap Mimic is an easy-to-use software simulation and multimedia tool that lets you create fully interactive movies, simulations, presentations and tutorials

Benefits

- Enhance your content with fully interactive movies and software simulations. Ideal for Technical Support, eLearning, Sales & Marketing, Online Help and more
- Single-source movies with variables, condition tags and more to maximize content reuse
- Improve user engagement by inserting actionable learning and user interaction requirements in movies
- Full-motion video support allows you to capture fluid action and record everything from YouTube™ videos, window animations and more
- Leverage previously created eLearning content with PowerPoint® import
- Generate multiple file outputs including Microsoft® Silverlight®, Adobe® Flash®, AIR® and PDF

Picis Uses MadCap Flare and MadCap Capture to Deliver Consistent, Best-in-Class Medical Software Documentation Worldwide
