

C# Developer

MadCap Software is an exciting place to work. We provide an environment where the best ideas win, and we value going beyond what has already been achieved. We believe that, like our products and services, our employees should be of highest quality.

With companies such as Microsoft, Google and HP on the customer list, MadCap Software is tackling the documentation industry by developing state-of-the-art, content workflow solutions for publishing in print, online, and on the Web. We are currently seeking super talented **C# Developers** to join the team.

Technical Requirements:

- 2+ years of software development or application development experience with MS technologies
- Working experience with Visual Studio 2005 or newer, developing software using C#, Winforms, and .NETSQL/Linq
- Experience with XML, WPF, WCF, and SQL Server a plus
- Strong understanding of object oriented design and programming principles
- Demonstrated ability to produce high quality code
- Knowledge of the full life-cycle development process
- Excellent verbal and written communications
- Excellent organizational, problem solving, and analytical skills with the ability to prioritize and handle multiple tasks
- Self-motivated, passionate, and hard working with the ability to perform with minimal supervision

Desired Educational Background

- Bachelors of Science in Computer Science or related field

Although we are looking for people who are interested in standing out individually, we pride ourselves on working together to make it happen. MadCap Software is an Equal Employment Opportunity (EEO) employer and offers challenging opportunities that go beyond the boundaries of a job description.

Please send resume, including salary requirements to madcapjobs@madcapsoftware.com. No agencies please. Local candidates only. Unrestricted US work authorization required.
